

# ASTRONAUT CRAFTIVITY

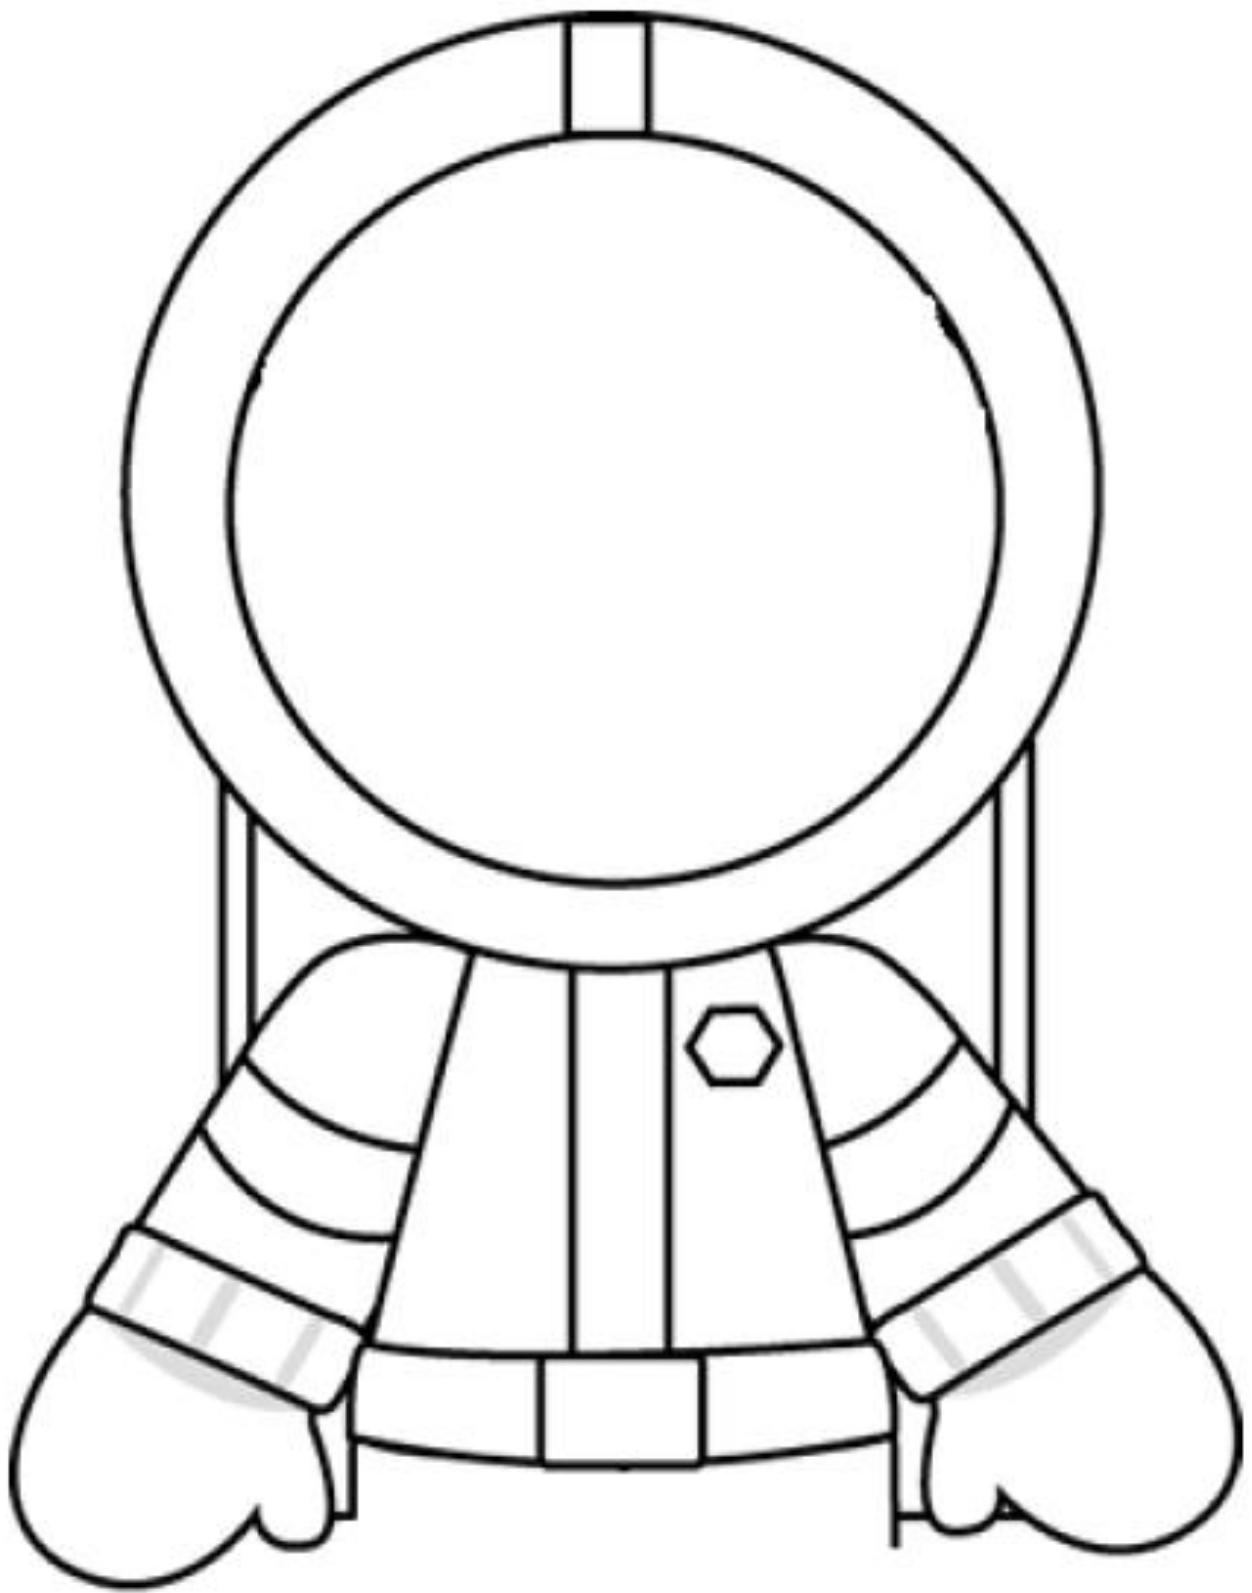

## Materials:

- Astronaut template on page 44
- writing prompt on page 45
- white cardstock paper
- crayons or markers
- glue
- scissors
- colorful construction paper

## Directions:

1. Give students a copy of the astronaut template (printed on cardstock) to color and decorate as they wish. They can draw their face or attach a picture of themselves inside the helmet! Cut these out and set aside.
2. Instruct students to write about what it would be like to be an astronaut using page 45. They can write about where in the solar system they would like to visit or what it would be like to ride in a spaceship!
3. Cut and paste the writing page onto a piece of colorful construction paper.
4. Have students glue their astronaut on top of the completed writing page.
  - These make a wonderful bulletin board display!
