

Jelly is easy to make, but you will need a grown-up to help you make it.

1 Get a packet of jelly.

2 Cut the jelly into squares with a scissors.

3 Put the squares of jelly into a bowl.

4 Ask a grown-up to pour 300 mls of hot water into the bowl.

5 Stir the jelly well until there are no lumps left.

6 Add 300 mls of cold water. Stir.

7 Put the jelly mix in the fridge until it is set.

8 Tip the jelly onto a plate. It is now ready to eat.

*Yummy yummy!*
